

REASONS TO LOVE

THE 2024 ACURA

ZDX

PRECISION
CRAFTED
PERFORMANCE
ELECTRIFIED

Acura's first-ever all-electric model—the all-new 2024 Acura ZDX—is accelerating towards Acura's goal of a 100% electrified lineup. Are you ready?

One look tells you that ZDX delivers on Acura's commitment to Precision Crafted Performance in a fresh new way, with dynamic styling and class-leading premium technology. One drive will reset your expectations for what an Acura SUV can be.

REASONS TO LOVE

THE 2024 ACURA **ZDX**

TWO WAYS TO **MOVE** YOU

ZDX comes in two different configurations: The ZDX A-Spec and the performance-oriented ZDX Type S (covered in detail separately [here](#)). ZDX A-Spec is offered in single-motor (rear-wheel-drive) and dual-motor (all-wheel-drive) configurations. Both A-Spec models feature premium content like Perforated Milano Leather heated and ventilated front seats, a panoramic power moonroof, 20-inch wheels and much more.

PERFORMANCE, PRESENCE AND **POISE**

ZDX styling was led by a team at the Acura Design Studio in Los Angeles, and marks the first production expression of Acura's Precision EV Concept. Low and wide, with a sleek silhouette, long wheelbase and high-contrast surfacing, ZDX embodies Acura's focus on performance from every angle. Distinctive design details include the evolution of Acura's signature front fascia, with the brand's iconic Chicane DRLs, Jewel Eye™ LED headlights and seamless Diamond Pentagon with 3D embossed diamond pattern and an eye-catching illuminated surround.

COMFORT, LUXURY AND TECHNOLOGY

Slide inside the 5-passenger ZDX, where the driver-oriented cockpit features high-end materials and an open, welcoming feel with sophisticated premium details and Two-Zone Ambient Lighting Control with 26 colors. Heated and ventilated 12-way power adjustable Perforated Milano Leather Seats offer luxurious support. Clever storage and convenience features include a versatile center console with roomy storage and wireless phone charging.

ALL-ELECTRIC ACURA **PERFORMANCE**

Built on a state-of-the-art electric vehicle platform with a flexible battery architecture, a low center of gravity and near 50/50 weight distribution, the ZDX A-Spec is powered by a rear-mounted single motor producing 358 horsepower. The AWD version adds a second motor up front that powers the

front axle and brings total output to an exhilarating 490 horsepower. Both versions share a 102 kWh lithium-ion battery; the single-motor A-Spec is anticipated to receive a 313-mile EPA range rating⁸⁵. And with standard Complimentary Service for 12 months/12,000 miles⁹¹, there are zero surprises.

REASONS TO LOVE

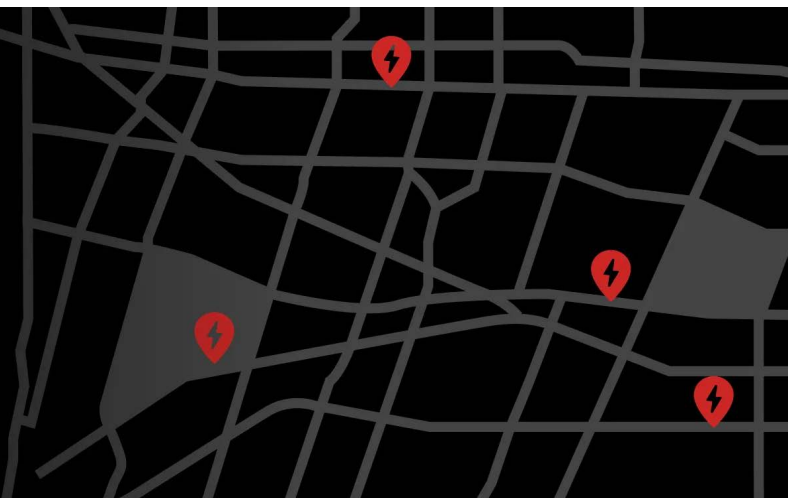

THE 2024 ACURA **ZDX**

IT'S A **BRAND NEW** WAY TO DRIVE

You might notice something missing in the ZDX. Where's the shifter? The traditional transmission selector you would normally find on the center console is replaced with an intuitive fingertip shift lever positioned on the right side of the steering column.

R, N, D and P—you'll feel right at home. Regen on Demand offers increased deceleration when you press and hold a convenient steering wheel paddle. Regenerative braking puts energy back into the battery, instead of using the conventional brakes.

QUICK PIT STOPS

Recharging on the go is quick and convenient with DC Fast Charging at rates up to 190 kW. That means the 102-kWh lithium-ion battery pack in the ZDX A-Spec rear-wheel drive can gain an estimated 81 miles of range in just 10 minutes⁸⁷. Built-in Google Maps can estimate the charging time required to reach your next destination, and can initiate preconditioning of the EV battery if the destination is a DC Fast Charging station.

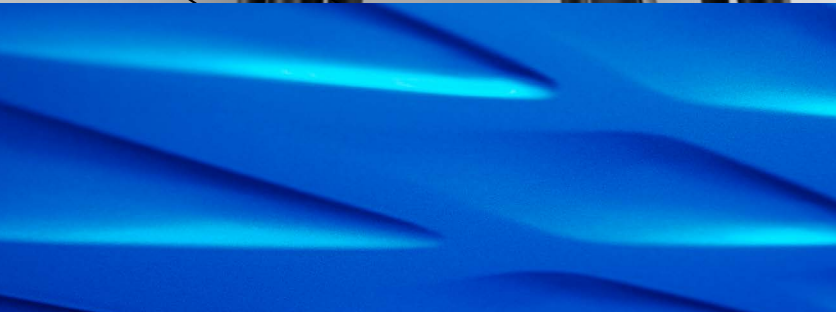

REASONS TO LOVE

THE 2024 ACURA **ZDX**

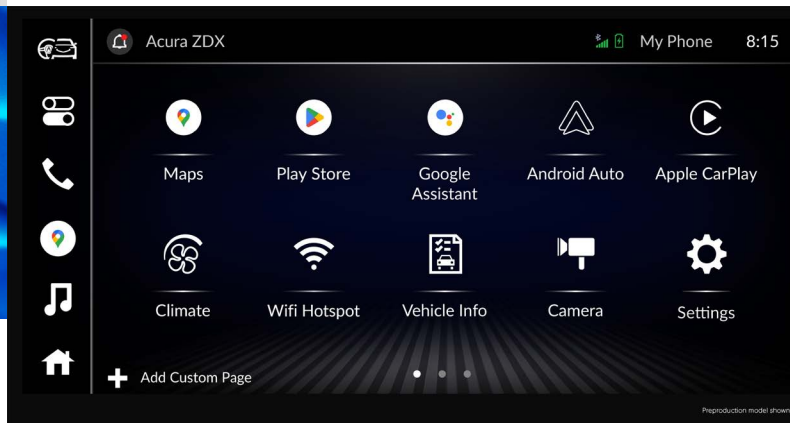

EASY TO LIVE WITH

ZDX offers top-in-class comprehensive home and public charging options. Acura makes it easy for ZDX clients to select, order and install an Acura charger in their home. For charging on the go, the Acura Smartphone App offers access to more than 90-percent of existing DC Fast Charging networks. ZDX owners will also have access to IONNA, a new high-speed joint venture charging network in the United States and Canada.

TECHNICALLY, IT'S A **KNOCK OUT**

ZDX features a combined 22 inches of high-definition digital screen real estate with a standard Driver Information Cluster (11 inches) and Center Information Screen (11.3 inches) with an intuitive touchscreen interface and wireless Apple CarPlay[®] 49 and Android Auto[™] 50 compatibility.

With Acura's first integration of Google built-in⁹⁰, ZDX offers seamless on-the-go connectivity with apps like Google Assistant, Google Maps and more. Google Maps can be displayed on either screen, offering convenient route planning with recommended charging stations to optimize travel time.

A STUNNING **SOUND TRACK**

ZDX is the first Acura model to feature the immersive luxury audio experience of Bang & Olufsen, the respected Danish audiophile brand. Standard on all ZDX models, the specially designed system has 18 speakers, 14-channels of amplification and a subwoofer to deliver powerful and spectacularly detailed sound.

ZDX

ADVANCED SAFETY AND ASSISTANCE

ZDX A-Spec offers an impressive array of standard safety and driver assist technologies, including Adaptive Cruise Control³⁴, Lane Keep Assist³⁸, Rear Cross Traffic Braking, Blind Zone Steering Assist, 8 standard airbags and much more.

REASONS TO LOVE

THE 2024 ACURA **ZDX**

³⁴ Adaptive Cruise Control (ACC) cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. ACC should not be used in heavy traffic, poor weather or on winding roads. Driver remains responsible for safely operating vehicle and avoiding collisions.

³⁸ LKAS only assists driver in maintaining proper lane position when lane markings are identified without a turn signal in use and can only apply mild steering torque to assist. LKAS may not detect all lane markings; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.

⁴⁹ Apple CarPlay is a trademark of Apple Inc.

⁵⁰ Android Auto is a trademark of Google LLC.

⁸⁵ 313 mile EPA Range Rating for A-Spec RWD; 304 mile EPA Range Rating for A-Spec AWD; 278 mile EPA Range Rating for Type S & Type S with Performance Wheel & Tire. Use for comparison purposes only. Actual range will vary based on several factors, including temperature, terrain, battery age & condition, loading, use and maintenance.

⁸⁷ Maximum estimated 81 mi. range based on internal testing and specific conditions using DC Fast Charging (DCFC). Your results will vary based on vehicle condition and other factors, such as battery condition, output of charger, the original state of the battery's charge and outside temperature. Charging time is subject to change.

⁹⁰ Google built-in services are subject to limitations and, availability may vary by vehicle, infotainment system and location. Select service plan required.
